LinkedIn: <https://www.linkedin.com/in/alena-n-kniazeva/> ● GitHub: <https://github.com/ElenaNKn>

SUMMARY

Data Analyst with a strong background in product analytics, A/B testing, and user behavior analysis. Skilled in translation of complex datasets into clear product and marketing insights, with a focus on performance metrics and growth opportunities. Experienced in collaborating with cross-functional teams to deliver data-driven recommendations. Proficient in Python, SQL, and Tableau, with a passion for leveraging AI tools to accelerate insights

EMPLOYMENT AND PROFESSIONAL EXPERIENCE

Data Analyst at *Maxbitsolution* (04.2024 – 06.2026)

- Product & Data Analytics: Conducted over 50 studies, providing a comprehensive evaluation of product functionality effectiveness and identifying user segments most engaged with different product features
- Experimentation & insights: Analyzed the results of 15 A/B tests, yielding insights and recommendations on the performance of the features under review
- Owned and enhanced dashboards: Developed and maintained interactive dashboards (Tableau) for monitoring product performance, enabling stakeholders to track user activity and feature engagement without requiring ad-hoc queries

EDUCATION

The Belarusian State University. Mechanics and Mathematics Faculty (graduate studies)
2001-2006, with honors

The Joint Institute of Mechanical Engineering of the National Academy of Sciences of Belarus
(postgraduate studies)
2006-2009, Candidate of technical sciences degree

PROJECTS

https://github.com/ElenaNKn/data_projects - data analysis, A/B testing, and machine learning projects:

- end-to-end A/B-test: from hypothesis formulation to result interpretation;
- user flow sankey diagram with Plotly: identification of key pain points in the customer's experience;
- multiclass classification with machine learning models;
- improvement of regression model performance through feature engineering;
- data clusterization

SKILLS

Fields of Knowledge

Product & Data Analytics, A/B Testing & Experimentation, Funnel & Cohort Analysis, User Behavior Analysis, Retention & Conversion Optimization, KPI Definition, Data Storytelling
Machine Learning (linear and logistic regression, tree-based algorithms, clusterization)

Tools

Python (NumPy, Pandas, Matplotlib, Plotly, Seaborn, Scikit-learn, Statsmodels, Scipy)
SQL (ClickHouse, Postgres)
Tableau

Languages

English (B2), German (Goethe-Certificate B1 in 2018), Russian (native)

SERTIFICATIONS

Data Analysis in Industry (T-Education, 2023)
Machine Learning Specialization (coursera.org / DeepLearning.ai, Stanford University, 2024)
Advanced Data Analytics Professional Certificate (coursera.org / Google, 2025)
Advanced A/B-test simulator (Karpov.courses, 2026)
